The analysis of feedback from P. K. M College of Education teachers on the B.Ed curriculum (2018-19) reveals positive perceptions. Notably, respondents express agreement on curriculum alignment with student needs, effective presentation of content complexity, and a balanced blend of practical and theoretical knowledge. The curriculum is seen as fostering qualities of good citizenship and promoting research skills. Teachers affirm that pedagogical aspects match content, and planning aligns with recent developments. Moreover, the curriculum is recognized for enhancing teachers' subject knowledge and keeping them professionally updated. Overall, the findings indicate a well-received and effective educational program at P. K. M College of Education.

The feedback from teachers at P. K. M College of Education on the B.Ed curriculum reveals positive perceptions in the academic year 2018-19. In the analysis of the data related to "Assessment for Learning – Natural Science," key points stand out. Teachers generally agree that curriculum implementation aligns with student needs and the content is effectively presented from simple to complex forms. The curriculum is deemed suitable for meeting differential student needs, striking a balance between practical and theoretical knowledge. It is commendable that the value content of the curriculum is seen as contributing to students becoming good citizens. Pedagogical aspects are considered to match the content, and both curriculum planning and implementation align with recent developments. Additionally, the curriculum is perceived to enhance teachers' subject knowledge, promote research skills, and keep teachers professionally updated, indicating a comprehensive and effective educational program.

Ans) Agree

The feedback analysis from P. K. M College of Education's B.Ed curriculum reveals positive perceptions among teachers during the 2018-19 academic year. Notably, in the domain of Pedagogy of School Subject - Part 2: Natural Science (P301.8), teachers expressed unanimous agreement that curriculum implementation aligns with student needs. The content presentation, striking a balance between simplicity and complexity, received strong affirmation. The curriculum's adaptability to diverse student needs and its equilibrium between practical and theoretical knowledge garnered agreement. The value content's impact on shaping good citizens was strongly agreed upon. The alignment of pedagogical aspects with content and the relevance of curriculum planning to recent developments were acknowledged positively. Furthermore, the curriculum was seen as a catalyst for enhancing teachers' subject knowledge, promoting research skills, and keeping educators professionally updated. Overall, the analysis indicates a well-received and effective B.Ed curriculum at P. K. M College of Education under Kannur University.

The feedback analysis from P. K. M College of Education's B.Ed. curriculum reveals positive perceptions among teachers during the 2018-19 academic year. The questionnaire, administered by the IQAC, focused on ten Likert-scale questions related to different aspects of curriculum design and implementation. Notably, teachers express a unanimous agreement on various facets, including the alignment of curriculum with student needs, the presentation of content from simple to complex, and the balance between practical and theoretical knowledge. The consensus also extends to the curriculum's effectiveness in instilling values, matching pedagogical aspects with content, and staying updated with recent developments. Moreover, the curriculum is acknowledged for enhancing teachers' subject knowledge, promoting research skills, and keeping them professionally updated. This positive feedback suggests a well-received and impactful B.Ed. program at P. K. M College of Education under Kannur University.
